LAHARCO[®] DIODE LASER

Superior Line Quality -- Specially Designed Optics
Rugged Construction -- Nickel Plated finish
Full Warranty

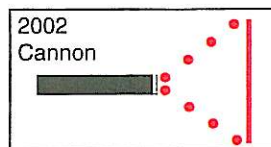

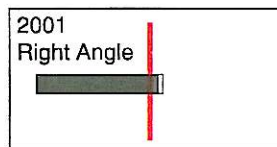

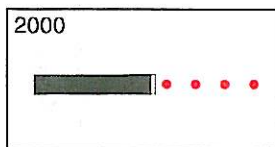

With many years of individual manufacturing experience, LACEY-HARMER Company is proud to offer DIODE LASER LINE GENERATOR.

Like all LAHARCO[®] LASERS, the diode models are available with a wide range of optics and accessories designed to meet your needs.

SPECIFICATIONS

Laser Type	Visible Laser Diode	Operating Current	100 ma
Laser Composition	Semiconductor InGaIP	Operating Temperature	-20° to 40°C
Laser Class	II, IIIa	Surge & Spike Protection	90V for 250 ms
Wavelength	635nm	Mechanical Shock Resistance	300g for 1 ms
Output	5mW - 15mW	Housing	Nickel plated 6061-T6 Aluminum
Collimation	4 Element Glass < 0.3 Radian	Environmental	Meets NEMA 2
Beam Angle	5 to 90 Degrees	Dimensions	0.75"D x 4.2"L
Operating Voltage	5 VDC Regulated	Weight	2 oz.
