The **EASY EMPTY Container** is the only truly self-dumping hopper on the market to date. As the forklift tilts the mast just a few degrees forward, the **EASY EMPTY Container** will tip and the unique self-locking mechanism will release the door. Simply tilt the mast back or lower to the ground, and the **EASY EMPTY Container** will reset and the door is locked. Within seconds the **EASY EMPTY Container** is ready to go back to work! *It's just that EASY!*
